

ABSTRACT

WATCH INCLUDING MEANS ALLOWING THE INTRODUCTION OF
ELECTRIC CONNECTING MEANS INSIDE THE WATCH CASE

The present invention concerns a watch including a watch case (1), a wristband (2), a first and a second electric module (5, 6), respectively arranged inside and outside the watch case (1), a and electric connecting means (3) assuring an electric connection between said first and second
5 electric modules (5, 6). According to the present invention, this watch includes introduction means (4; 44, 8; 9) allowing said electric connecting means (3) to be introduced inside the watch case (1) in a water resistant manner.
