CRYSTALLINE N-ACETYL NEURAMINIC ACID DERIVATIVES AND PROCESSES FOR THEIR PREPARATION

ABSTRACT

Acetamido-2,3,4,5-tetradecoxy-4-guanidino-D-glycero-D-galacto-non-2-enopyranosinic acid in crystalline form, particularly in the form of a hydrate which exists as crystals having a low aspect ration, or in the form of a hydrate which exist as crystals having a high aspect ratio.
