

ENDOMETRIOSIS PREVENTION AND/OR IMPROVING AGENT, AND FOOD OR DRINK
COMPOSITION CONTAINING SAME

ABSTRACT

5

The present invention provides agents for preventing and/or improving endometriosis,
which contain lactic acid bacteria of the genus *Lactobacillus*, in particular, *Lactobacillus gasseri*
strain OLL2809. The present invention also provides food and beverage compositions for
preventing and/or improving endometriosis, which contain the lactic acid bacteria, and methods
10 for preventing and/or improving endometriosis which comprise administering the lactic acid
bacteria.
