

G00002

ABSTRACT OF THE DISCLOSURE

A polyamide resin composition contains
100 parts by weight of (A) a polyamide resin with a
5 melting point of 270°C to 340°C;
0.2 to 20 parts by weight of (B) a compound
represented by Formula (I)

where R¹ and R² are alkyl groups having at least 9 carbon
atoms, and m and n are integers from 1 to 3; and
10 1 to 100 parts by weight of (C) a bromine-based flame
retardant.
