(54) Title: METHOD FOR IMPROVING BIOAVAILABILITY OF LATANOPROST

[Fig. 1A]

(57) Abstract: The present invention relates to a method for improving ocular bioavailability of latanoprost by adding an organic amine to an aqueous eye drop composition containing latanoprost. The invention further relates to an aqueous eye drop composition in which a better ocular bioavailability of latanoprost is achieved by adding an organic amine, and to a method for treating ocular hypertension and glaucoma by administering said composition to a subject in need of such treatment.
