(54) Title: PRINTER ARRANGEMENT AND METHOD OF MANUFACTURE

(57) Abstract: A mounting arrangement for mounting a printer component to a support (30), using a foil (60) including a number of mounting apertures (50), into which pins (40) are inserted to provide alignment. The engagement of the pins (40) in the apertures (50) causes local deformation of the foil (60), the resulting forces acting to align the pins (40) to an accuracy which can be greater than that to which the foil (60) is manufactured.
