[CLAIMS]

[Claim 1]

Use of a composition comprising a peptide or a pharmaceutically acceptable salt thereof in the manufacture of a medicament for the prevention or treatment of a periodontal disease or the treatment of a dislocated traumatic tooth, wherein the peptide consists of an amino acid sequence of any one of SEQ ID NOs: 1 to 16.

[Claim 2]

The use of claim 1, wherein the composition comprises a polypeptide in which the peptide is linked repeatedly.

[Claim 3]

The use of claim 1, wherein the periodontal disease is a periodontium inflammatory disease.

[Claim 4]

The use of claim 1, wherein the periodontal disease is gingivitis or periodontitis.

[Claim 5]

The use of claim 1, wherein the composition further comprises a drug for treating the periodontal disease.

[Claim 6]

The use of claim 1, wherein the composition promotes periodontium regeneration.

[Claim 7]

The use of claim 1, wherein the composition promotes regeneration of any one or more of gingiva, periodontal ligament, cementum, and alveolar bone.

[Claim 8]

The use of claim 1, wherein the composition is a pharmaceutical composition.

[Claim 9]

The use of claim 1, wherein the composition is a health functional food composition.

[Claim 10]

The use of claim 1, wherein the composition promotes expression of any one or more genes of bone sialoprotein (BSP), dentin matrix protein 1 (DMP1), Cementum attachment protein (CAP), collagen type III (COL3) and Periostin.
