(54) **Title:** SUPPORT APPARATUS FOR DISPLAY DEVICES AND OTHER OBJECTS**FIG. 1**

(57) **Abstract:** A support apparatus (1) includes an arm assembly (3) attached to a support assembly such that the arm assembly is positionable adjacent to an article of furniture such as a desk or work surface. A mounting device (11) is attached to the arm assembly that is sized and configured to retain a display device. A vertically adjustable attachment mechanism (40) attaches a first end of the counterbalance mechanism to the arm assembly or support assembly. The vertically adjustable attachment mechanism is sized and configured such that a vertical position of the first end of the counterbalance mechanism is adjustable via movement of at least one component of the vertically adjustable attachment mechanism.
