USES AND COMPOSITIONS OF DIFLUOROMETHOXY -2,2,2- TRIFLUOROETHANE

Abstract

The present invention relates to new uses of difluoromethoxy-2,2,2-trifluoroethane (E245) and to compositions which comprise a further solvent (cosolvent) in addition to difluoromethoxy-2,2,2-trifluoroethane. The invention furthermore relates to new compositions of E245 as a mixture with some of these solvents. A process for fixing toner applied to a recording material by means of fixing vapour based on E245 is described as a preferred use; in this process, E245 is used as such or as a mixture with a cosolvent.
