(54) Title: SOLVENT REMOVAL ASSISTED MATERIAL TRANSFER FOR FLEXOGRAPHIC PRINTING

(57) Abstract: Methods and systems for flexographic printing are discussed. The methods include removing solvent from a material to be transferred from a donor substrate to a feature of a flexographic printing plate. Solvent is removed from the material prior to transfer to the feature, resulting in improved transfer of the material to the feature. The systems include solvent removal apparatuses for facilitating removal of solvent from the material.
