(54) Title: LANCET DEVICE HAVING CAPILLARY ACTION

(57) Abstract: A device for sampling body fluid, the device comprising, a main body (105), a lancet (120) disposed within the main body, a carrier (110) disposed within the main body fixedly attached to the lancet, a biasing means (150) in communication with the lancet and the carrier, an annular space (130) disposed within the main body adjacent the lancet, and a means for measuring a body fluid. Wherein the means for measuring the body fluid may include micro-porous test strips, an electronic testing device, an optical/reflectance testing measuring device, or a visual inspection.
