|----|------------------------------|
| 1  | Header Component             |
| 2  | Directory Component          |
| 3  | Applet Component             |
| 4  | Import Component             |
| 5  | Constant Pool Component      |
| 6  | Class Component              |
| 7  | Method Component             |
| 8  | Static Field Component       |
| 9  | Reference Location Component |
| 10 | Export Component             |
| 11 | Descriptor Component         |
| 12 | Debug Component              |

The diagram consists of a table with 12 rows, each containing a number and a component name. To the right of the table, a large curly bracket spans the height of the entire table, and the word 'Applet' is written to the right of this bracket, indicating that all 12 components are part of the Applet.

Applet

## Applet 1

|    |                              |
|----|------------------------------|
| 1  | Header Component             |
| 2  | Directory Component          |
| 3  | Applet Component             |
| 4  | Import Component             |
| 6  | Class Component              |
| 7  | Method Component             |
| 9  | Reference Location Component |
| 10 | Export Component             |
| 11 | Descriptor Component         |
| 12 | Debug Component              |

## Applet 2

|    |                              |
|----|------------------------------|
| 1  | Header Component             |
| 2  | Directory Component          |
| 3  | Applet Component             |
| 4  | Import Component             |
| 6  | Class Component              |
| 7  | Method Component             |
| 9  | Reference Location Component |
| 10 | Export Component             |
| 11 | Descriptor Component         |
| 12 | Debug Component              |

## Applet 3

|    |                              |
|----|------------------------------|
| 1  | Header Component             |
| 2  | Directory Component          |
| 3  | Applet Component             |
| 4  | Import Component             |
| 5  | Constant Pool Component      |
| 6  | Class Component              |
| 7  | Method Component             |
| 8  | Static Field Component       |
| 9  | Reference Location Component |
| 10 | Export Component             |
| 11 | Descriptor Component         |
| 12 | Debug Component              |
