- (54) **Title:** METHOD AND APPARATUS FOR EVALUATING HARDWARE BASED ON CLOUD SERVER

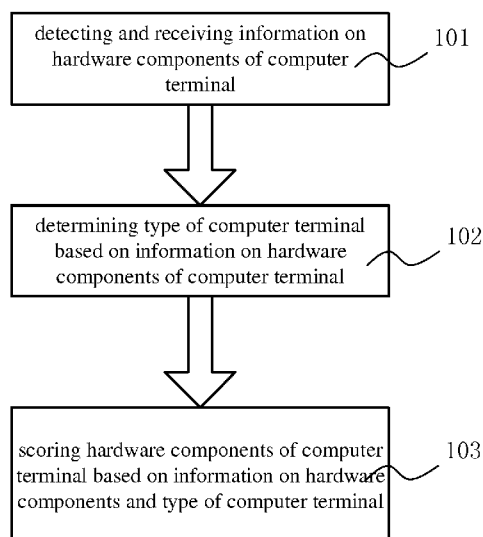

Figure 1

- (57) **Abstract:** The present invention relates to a method and apparatus for evaluating hardware based on a cloud server, the method comprising: detecting information on hardware components of a computer terminal; determining the type of the computer terminal based on information on the hardware components of the computer terminal; and scoring the hardware components of the computer terminal based on information on the hardware components and the type of the computer terminal. In accordance with embodiments of the present invention, the hardware components are scored based on the type of the computer terminal, and the relevant database are timely updated to ensure the accuracy of the hardware scoring.
