

FREE HANDRAIL

ABSTRACT

There is provided a free handrail that has a simple configuration and enables easy conveyance, production with less cost, and easy and safe installation to existing temporary stairs and scaffolds.

A free handrail (1a) includes a handrail member (2) installed along a slanted temporary stair (S), a cylindrical pillar (3) configured to retain an end of the handrail member (2), and a fixing means (4) provided at the lower end of the pillar (3). The free handrail (1a) is detachably coupled to a tread (P) of the temporary stair (S) via the fixing means (4).
