(54) Title: CABLE ENTRY FOR WATER-TIGHT AND DUST-TIGHT LEAD-THROUGH OF A CABLE, HOUSING WITH CA-
BLE ENTRY, AND METHOD OF LEADING A CABLE THROUGH A CABLE ENTRY

FIG. 1

(57) Abstract: The present invention relates to a cable entry comprising a body, wherein the body extends along a longitudinal axis and comprises a cavity, a first and a second opening for passage of the cable, a sealing element, wherein the sealing element is received in the hollow body and comprises a cylindrical channel for passage of the cable, wherein the cylindrical channel is oriented along the longitudinal axis, and a clamping element on the side of the second opening for clamping the sealing element, wherein the body and the clamping element each comprise two detachable halves, a first half on a first side and a second half being located on a second side of a plane, wherein the longitudinal axis of the body is in the plane, and wherein the sealing element is spiral shaped. The invention also relates to a housing, a method, and a use.
