

Hemorrhagic Shock model (HS)
 (* = time of administration peptide A, B or C in the peptide groups)

FIG. 1

Mean Arterial Pressure in sham, shock, and Peptide A, B and C experiments

**FIG. 2**

Hematocrit in (from left to right) sham, shock, and Peptide A, B and C experiments

FIG. 3

LEUKOCYTES DURING SHAM, TRAUMA-HEMORRHAGE, PEP A, B AND C experiments

FIG. 4

Macrophages (MO) and granulocytes (GR) in (from left to right) sham, trauma-hemorrhagic shock, and Peptide A, B and C experiments

FIG. 5

Arterial blood flow in (from left to right) sham, shock, and Peptide A, B and C experiments
