(54) **Title:** UNIVERSAL CONNECTION INTERFACE FOR SUBSEA COMPLETION SYSTEMS

(57) **Abstract:** A subsea completion system includes a first component (119) which comprises a first connection interface (10a), a second component (112) which comprises a second connection interface (12a), and a third component (122) which comprises a third connection interface (12b) that is complimentary to both the first (10a) and second (12a) connection interfaces. Consequently, the third component (122) is operatively engageable with either of the first (114) and second (112) components.
