(54) Title: CELL LINES FOR EXPRESSION OF LHCG RECEPTOR

(57) Abstract: The invention described herein relates to novel cell lines for the expression of a human LHCG receptor and for the expression of a human LHCG receptor together with a luciferase reporter gene. Also described are methods of preparing such cell lines. The cell line of the present invention expressing the LHCG receptor and the luciferase reporter gene is useable in a method for determining the presence and the biological activity of r-hLH and r-hCG samples.
