TITLE OF INVENTION: A METHOD OF INSTALLING A CONTAINER BATTERY AND A CONTAINER BATTERY STORAGE FACILITY

ABSTRACT

A method of installing a first container battery at a designated location is disclosed. The method includes erecting a platform which has a space thereunder that can accommodate at least one second container battery. The method further includes moving the first container battery onto a loading area on the platform, and transporting the first container battery on the platform from the loading area to the designated location on the platform. A container battery storage facility wherein container batteries are installed using the method is also disclosed.
