(54) Title: APPARATUS AND METHOD FOR A TURRET TEST

(57) Abstract: Disclosed herein are a turret test method and apparatus. The turret test method includes rotatably installing a turret (T) at an adjacent structure (100), installing a winding drum (200), the winding drum (200) being disposed in a rotation direction of the turret (T) and rotating along with the turret (T), winding both parts of a rope (300) about the winding drum (100) in the same direction about a rotation axis (X) of the turret (T), and providing tension to the rope (300).
