33. The bispecific antibody of claims 1 to 26 or the antibody of claims 27 to 30 for use as a medicament.

34. Use of the bispecific antibody of claims 1 to 26 or the antibody of claims 27 to 30 in the manufacture of a medicament.

35. The use of claim 34, wherein the medicament is for treatment of cancer.

36. The use of claim 34, wherein the medicament is for treatment of pancreatic cancer or colorectal carcinoma.

37. A nucleic acid sequence comprising a sequence encoding a heavy chain of a bispecific antibody of claims 1 to 26 or the heavy chain of an antibody of claims 27 to 30.

38. A nucleic acid sequence comprising a sequence encoding a light chain of a bispecific antibody of claims 1 to 26 or the light chain of an antibody of claims 27 to 30.

39. An expression vector comprising a nucleic acid sequence of claim 37 and/or claim 38.

40. A prokaryotic or eukaryotic host cell comprising a vector according to claim 39.

41. A method of producing an antibody comprising culturing the host cell of claim 40 so that the antibody is produced.

~~42. The invention as described herein, especially with reference to the foregoing examples.~~
