

This figure is a cross-sectional view of a second embodiment of the device. It features a central chamber 2 containing several vertical elements labeled M1, M2, M3, and M11 through M13. The top and bottom walls are curved, with labels 4 and 5 indicating specific regions. Dimensions L1 and L2 define horizontal lengths, while D1 and D2 define vertical distances. Flow arrows D1, D2, D11, and D12 indicate the direction of movement or fluid flow. Structural details include components 31, 32, 61, 62, and 63, which appear to be part of the housing or internal support structures. Section lines A-A' are shown at the top and bottom.

[illegible]

A cross-sectional view of a medical device 2. The device consists of a central tube 4 with a wavy internal structure 5. The device has a handle 3 at one end and a distal tip 2 at the other. Various components are labeled with numbers: 3, 4, 5, 52, 7, 33, 34, 331, 332, 333, 35, 36, and S.
