[図7]

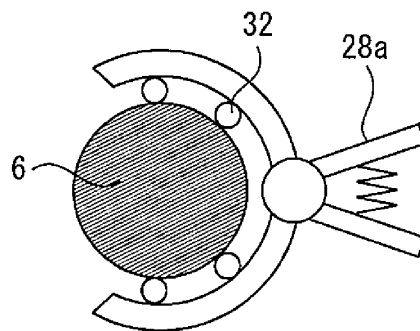

A diagram of a three-lobed structure, similar to a trefoil knot, with three downward-pointing arrows labeled R_1 , R_2 , and R_3 indicating forces at the lobes. The lobes are arranged from right to left, with R_1 on the rightmost lobe, R_2 on the middle lobe, and R_3 on the leftmost lobe. Above the diagram, the text $R_3 > R_2 > R_1$ is written. On the right side, a horizontal line with a spring symbol (a coiled line) is attached to the structure.
