

**TITLE OF INVENTION: UPLINK SYNCHRONIZATION METHOD AND
APPARATUS, ELECTRONIC DEVICE AND STORAGE MEDIUM**

ABSTRACT

An uplink synchronization method and apparatus, an electronic device, and a storage medium are provided. The method includes: obtaining, by a first terminal, first information and/or performing uplink and/or downlink synchronization in the case of one or more of the followings: that a duration until a first timer times out is less than or equal to a first preconfigured duration; that a first indication sent by a network side is received; wherein the first indication is used to instruct the first terminal to obtain the first information and/or perform the uplink and/or downlink synchronization; or that uplink synchronization loss is detected or imminent uplink synchronization loss is detected; wherein the first information represents information related to uplink synchronization.
