

Kitchen Sink And The Method of Installing The Same

Abstract of the Disclosure

5

A kitchen sink (10) and the method of installing the kitchen sink (10) is disclosed. The kitchen sink (10) for flush mounting onto a counter top (80) having a recess (82) for the sink, comprising

(a) one or a plurality of sink basins thereon;

10

(b) a deck having a substantially horizontal top surface and edges (14) having a recess formed into a rim around the perimeter of the kitchen sink (10) , wherein the top surface of the deck is adapted to be substantially flush with the counter top (80) upon the sink (10) is being mounted to the counter top (80) , and the edges (15) of the rim is being formed into a flange;

15

(c) four corners (15) of the sink (10) being formed rounded such that when the sink (10) is installed into the recess (82) on the edge (15) of the hole opening (100) in the counter top (80), the flange is substantially flush with the counter top (80) at a level surface thereof, whereby the kitchen sink (10) is being mounted in flush fit of the deck and the counter top (10). The present invention is also related to a method of installing
