(54) Title: BATCH AND SEMI-BATCH LOW SALT REJECTION REVERSE OSMOSIS DESALINATION

(57) Abstract: Batch and semi-batch multistage desalination methods and systems are disclosed which may include low salt rejection reverse osmosis as dewatering units. The systems and methods may include a recirculating water stream which increases in salinity to which new feed water may be added to create a recirculating loop. Once a desired saline concentration is achieved in the loop the saline water may be rejected and the cycle repeated.
