(54) Title: APPARATUS AND METHOD FOR DETERMINING THE HEALTH EFFECTS ASSOCIATED WITH VARIOUS PRODUCTS

(57) Abstract: There is provided an apparatus and method for determining health effect of a selected product, or products(s) providing a selected health effect. The apparatus comprises a database of products and associated health effects; an input for a user to input the selected product or selected health effect; a processor for determining health effect of the selected product from the database and/or for determining product(s) from the database providing the selected health effect; and an output for outputting information to the user. The method comprises the steps of providing a database of products and associated health effects; inputting the selected product or selected health effect into a user input; determining health effect of the selected product from the database, or product(s) from the database providing the selected health effect; and outputting information to the user.
