FIG. 1

200

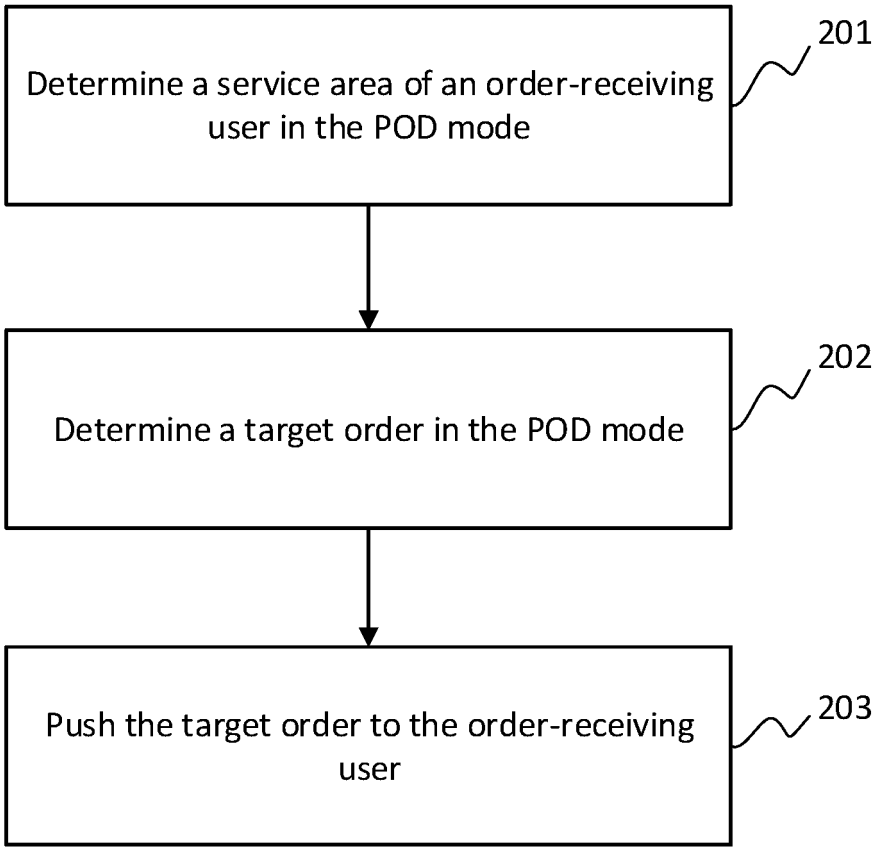

Determine a service area of an order-receiving user in the POD mode
201
Determine a target order in the POD mode
202
Push the target order to the order-receiving user
203

FIG. 2

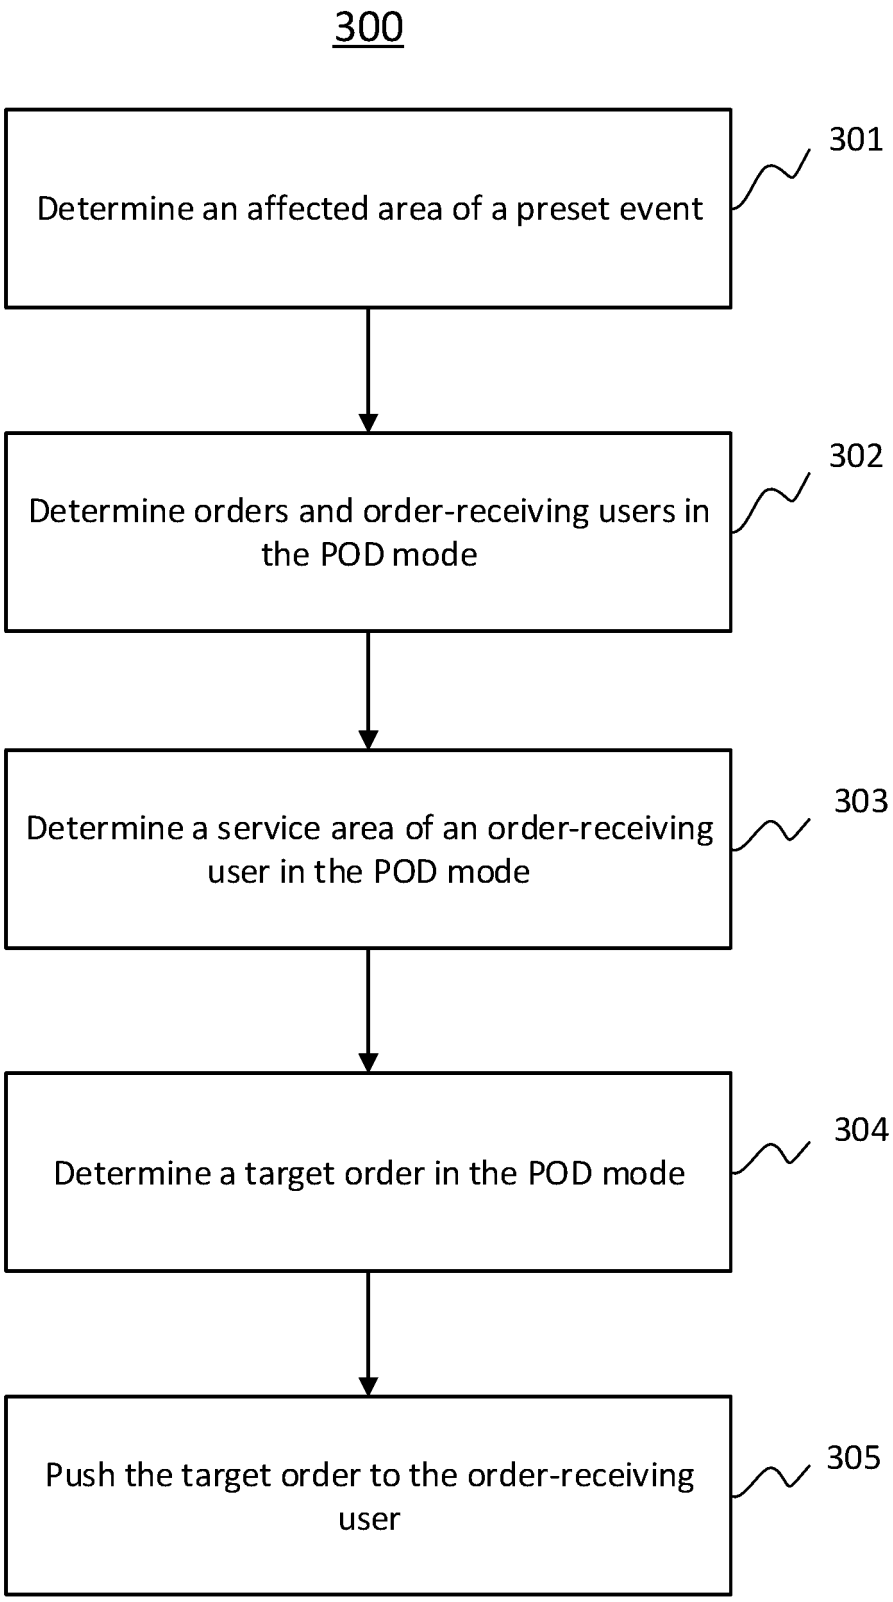

300
Determine an affected area of a preset event
301
Determine orders and order-receiving users in the POD mode
302
Determine a service area of an order-receiving user in the POD mode
303
Determine a target order in the POD mode
304
Push the target order to the order-receiving user
305

FIG. 3

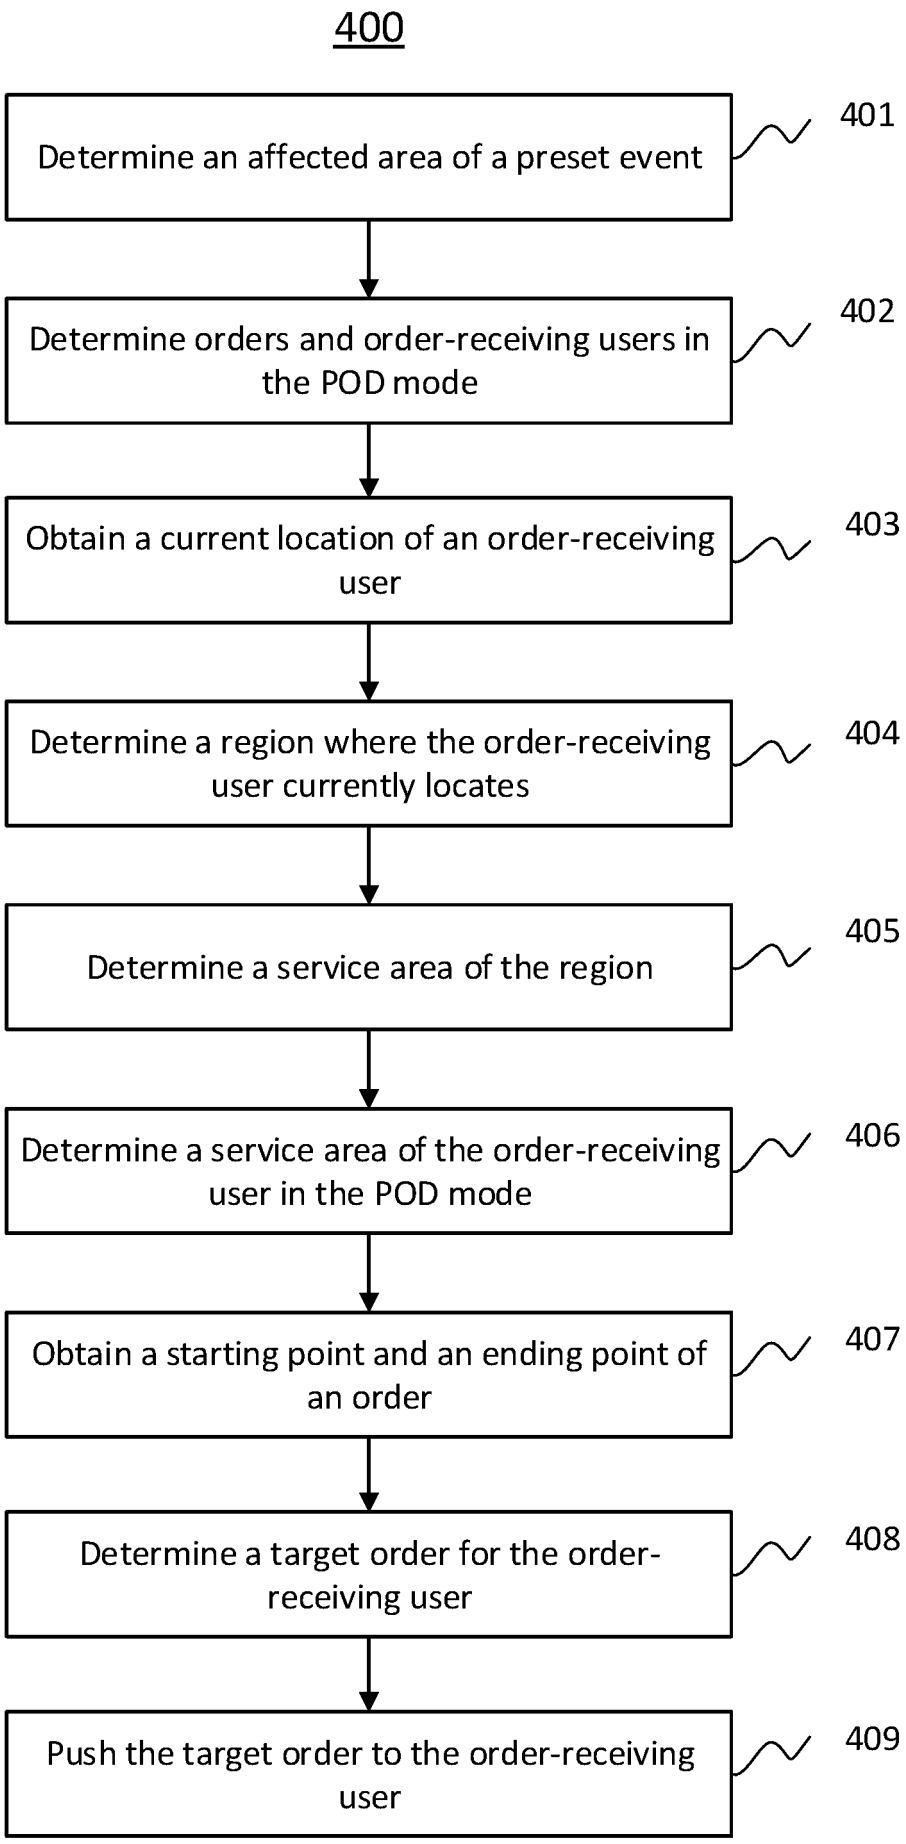

400
Determine an affected area of a preset event
401
Determine orders and order-receiving users in the POD mode
402
Obtain a current location of an order-receiving user
403
Determine a region where the order-receiving user currently locates
404
Determine a service area of the region
405
Determine a service area of the order-receiving user in the POD mode
406
Obtain a starting point and an ending point of an order
407
Determine a target order for the order-receiving user
408
Push the target order to the order-receiving user
409
