(54) **Title**: ORALLY DISINTEGRATING TABLET CONTAINING ACARBOSE

(57) **Abstract**: It was an object of the present invention to provide an orally disintegrating tablet (ODT) for the glycosidase inhibitor acarbose. The object is achieved with an orally disintegrating tablet containing 1–30% acarbose and 40–90% water-soluble carrier. In order to obtain the desired properties, the ingredients have to be precompacted and to be premixed with an insoluble carrier.
