ance Notes on Codes and Abbreviations" appearing at the begin-
ning of each regular issue of the PCT Gazette.

(54) Title: ORGANIC ELECTROLUMINESCENT DEVICE AND FABRICATION METHOD THEREOF

(57) Abstract: Organic electroluminescent devices and methods of preparing such devices are provided. The organic electrolu-
minescent devices include a first electrode, a light emitting structure, a second electrode, a conductive layer, and a non-conductive
material. The light emitting structure is disposed between the first and second electrodes. The conductive layer is disposed on at least
a portion of the second electrode and is in electrical communication with the second electrode through an opening in the non-con-
ductive material.
