

CATHODE RAY TUBE APPARATUSABSTRACT OF THE DISCLOSURE

5 A CRT explosion-protection band comprising a band body
to be wound around the circumference of a panel portion of
the CRT and CRT holders for affixing the CRT to a mounting.
Projections for attaching the CRT holders to the band body
by projection welding are formed at the band body side. In
10 accordance with this configuration, the occurrence of
scratches etc. is prevented even when mounted to the panel
portion of the CRT and the explosion-protection performance
is improved.
