(54) Title: SYSTEM TO AUTOMATICALLY PROCESS COMPONENTS ON A DEVICE

(57) Abstract: System to automatically process components on a device. A method is provided for automatically processing components on a device. The method includes receiving a version identifier associated with an action list, determining that the version identifier is not equivalent to a stored version identifier, receiving the action list, parsing the action list to obtain a component identifier and an associated action, and performing the action on a component identified by the component identifier.
