(54) Title: FINE DRY PARTICULATE RESVERATROL ACTIVE AGENT COMPOSITIONS AND TOPICAL FORMULATIONS INCLUDING THE SAME

Figure 1

(57) Abstract: Fine dry particulate resveratrol compositions suitable for use in topical formulations, as well as methods of making the same, are provided. In the dry particulate resveratrol composition, the resveratrol active agent is associated with the particles, e.g., via entrapment in the pores of the particles and/or ionic binding and/or non-covalent binding to the surface of the particles and/or loosely associated with the particles. Also provided are topical formulations which include the dry particulate resveratrol compositions of the invention, and methods of using the same.
