(54) Title: REPRODUCING METHOD AND APPARATUS FOR INTERACTIVE MODE USING MARKUP DOCUMENTS

(57) Abstract: A reproducing method and apparatus for interactive mode using markup documents are provided. The method for reproducing AV data in interactive mode comprises a presentation engine operating according predefined states, wherein the operating state of a presentation engine for reproducing a markup document is divided into and defined as a start state, a reproduction state, a pause state, and stop state. In the reproduction state, the presentation engine performs a loading step for interpreting a markup document and loading the markup document on a screen; an interacting step for performing interaction between the markup document loaded on the screen with a user; and a finishing step for finishing the markup document loaded on the screen. By the method, when AV data are reproduced in the interactive mode, compatibility of display is provided.
