(54) **Title:** BASE MEMBER FOR A BOLLARD

Figure 2

(57) **Abstract:** A base member (102) for a bollard (112) comprises first and second rigid elements (302, 304). Each rigid element is integrally formed and comprises a base plate (292, 294) and a wall (262b, 260a, 260b, 258a) extending substantially perpendicularly away from the base plate. The first rigid element is fixed to the second rigid element. A lid (210) is fixed to the first rigid element and/or the second rigid element. The rigid elements and lid collectively form a box section comprising a plurality of chambers (372, 374) defined between the lid, the first rigid element and the second rigid element.
