# USE OF A PYRAZOLE DERIVATIVE FOR PREPARING MEDICINAL PRODUCTS THAT ARE USEFUL IN THE PREVENTION AND TREATMENT OF DYSLIPIDAEMIAS AND OF DISEASES RELATED TO DYSLIPIDAEMIAS AND/OR TO OBESITY

Sanofi-Aventis

## Abstract

Use of a pyrazole-derived compound that is an antagonist for cannabinoid $CB_1$ receptors, alone or combined with another active principal, for preparing medicinal products that are useful in the prevention and treatment of dyslipidaemias and of diseases related to dyslipidaemias and/or to obesity, such as metabolic syndrome, cardiovascular risks and hepatic diseases.
