

Figure 1

Figure 2

A ZIKV versus other flavivirus infections or vaccinations

B ZIKV versus healthy controls

Figure 3

A Anti-Zika Virus IgM

B Anti-Zika Virus IgG

C Anti-Zika Virus IgM and IgG

ZIKV patients (n=29)		Anti-ZIKV IgM		
		Positive	Borderline	Negative
Anti-ZIKV IgG	Positive	16	2	2
	Borderline	2	0	0
	Negative	6	0	1

Anti-ZIKV ELISA reactivity			
	IgM	IgG	IgM / IgG
n (positive/total)	24/29	20/29	28/29
Sensitivity	82.2%	69.0%	96.6%
95% CI	65.0-92.9%	50.6-82.9%	84.1-100%
