## ABSTRACT

LIQUID COMPOSITION WITH IMPROVED STORAGE STABILITY, WHICH CONTAINS AN AMIDE GROUP CONTAINING GUANIDINE DERIVATIVE OR/AND A SALT THEREOF

Herein is disclosed a liquid composition containing a specific amide group-containing guanidine derivative or/and a salt thereof (component A) and at least one (component B) selected from the group consisting of an inorganic salt, an organic acid salt, a nonionic surfactant and an ampholytic surfactant with an action to suppress the generation of the precipitate of the component A, in accordance with which can be provided a method for suppressing the generation of the precipitate of a specific amide group-containing guanidine derivative or/and a salt thereof in a liquid composition containing the derivative or/and a salt thereof, as well as such liquid composition with improved storage stability can be provided.
