- (54) **Title:** NON-INVASIVE REMOTE ACCESS TO AN APPLICATION PROGRAM

FIG. 2C

- (57) **Abstract:** Systems and methods for providing remote access to an application program. A server remote access program may cooperate with a screen scraping application to provide screen data to a client computing device. The display associated with the application program may be resized or cropped by a server for display on the client computing device. The client may connect to the server using a client remote access program that receives inputs from a user interface program.
