(54) **Title:** AEROSOL-GENERATING SYSTEM FOR DELIVERING NICOTINE SALT PARTICLES

Figure 1

(57) **Abstract:** An aerosol-generating system comprises: a nicotine source (8), a lactic acid source (10); and a single heater (14) configured to heat both the nicotine source (8) and the lactic acid source (10). The aerosol-generating system preferably comprises: an aerosol-generating article (2) comprising a cartridge (6) comprising a first compartment comprising the nicotine source (8) and a second compartment comprising the lactic acid source (10); and an aerosol-generating device (4) comprising the single heater (14). The cartridge (6) preferably comprises a cavity (18) for receiving the single heater (14) of the aerosol-generating device (4).
