ABSTRACT OF THE DISCLOSURE

COPOLYMER, PROCESS FOR PRODUCTION THEREOF, AND MOLDED ARTICLE THEREOF

A copolymer of an α-olefin with an alkenyl aromatic hydrocarbon having a structure in which tertiary carbon atoms are mutually separated by two methylene groups in the skeleton of the copolymer, a process for producing said copolymer with a specific catalyst and a molded article of said copolymer, and the copolymer and molded article thereof are transparent, excellent in elastic recoverability, flexibility, mechanical strength and scratch resistance.
