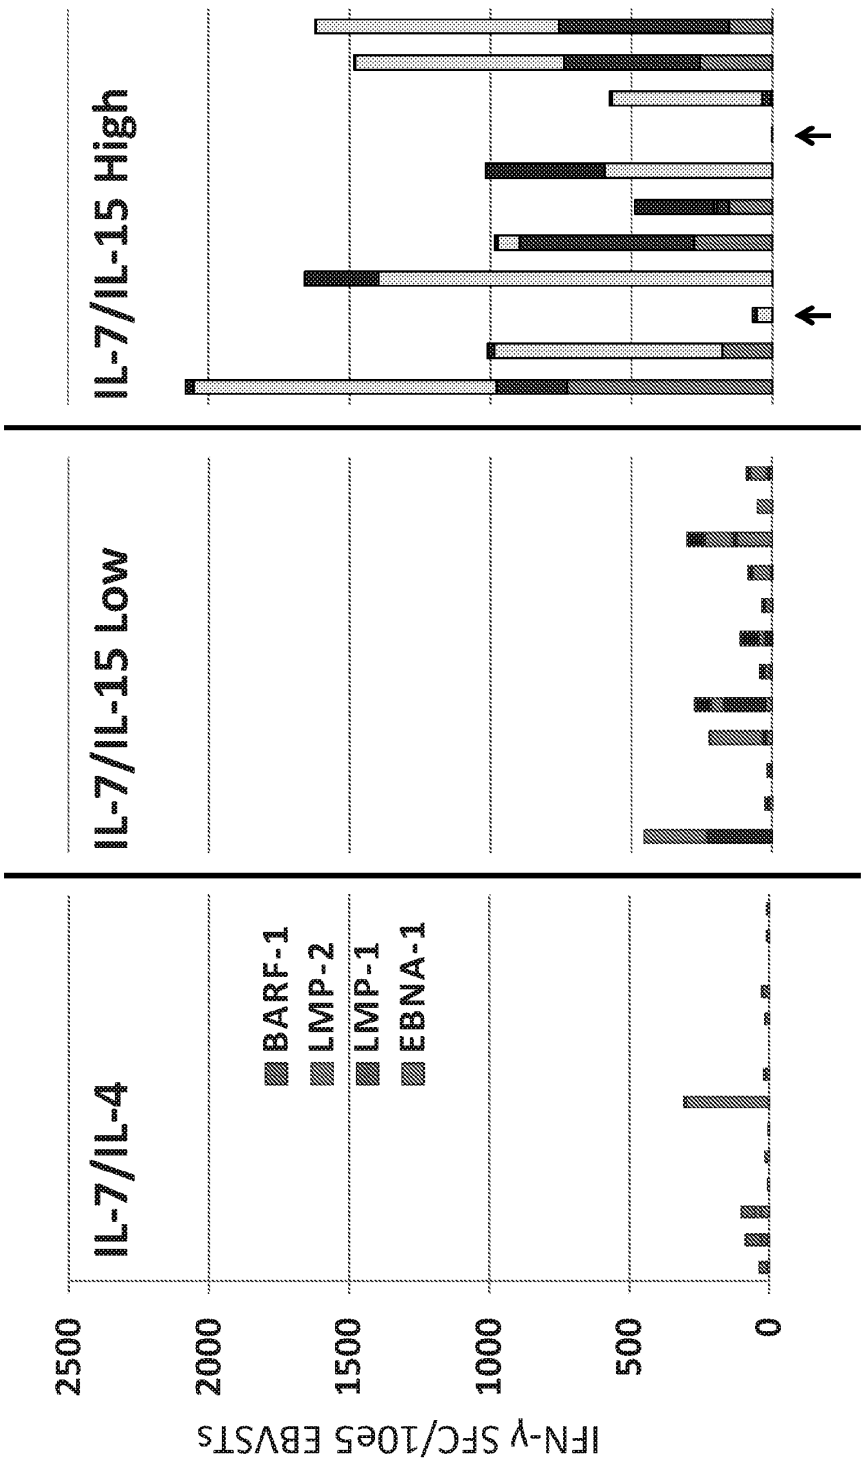

FIG. 4

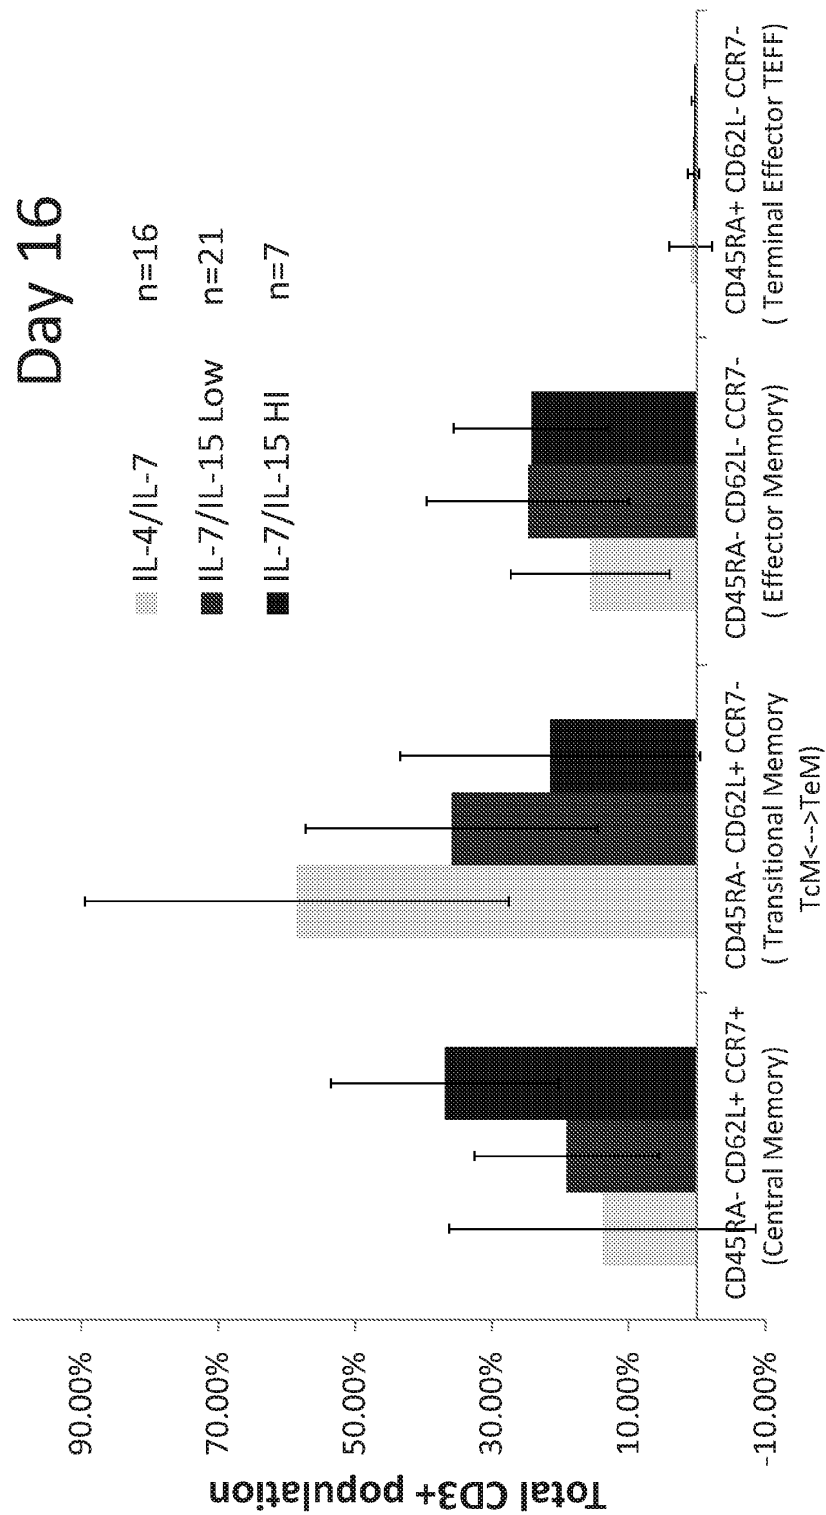

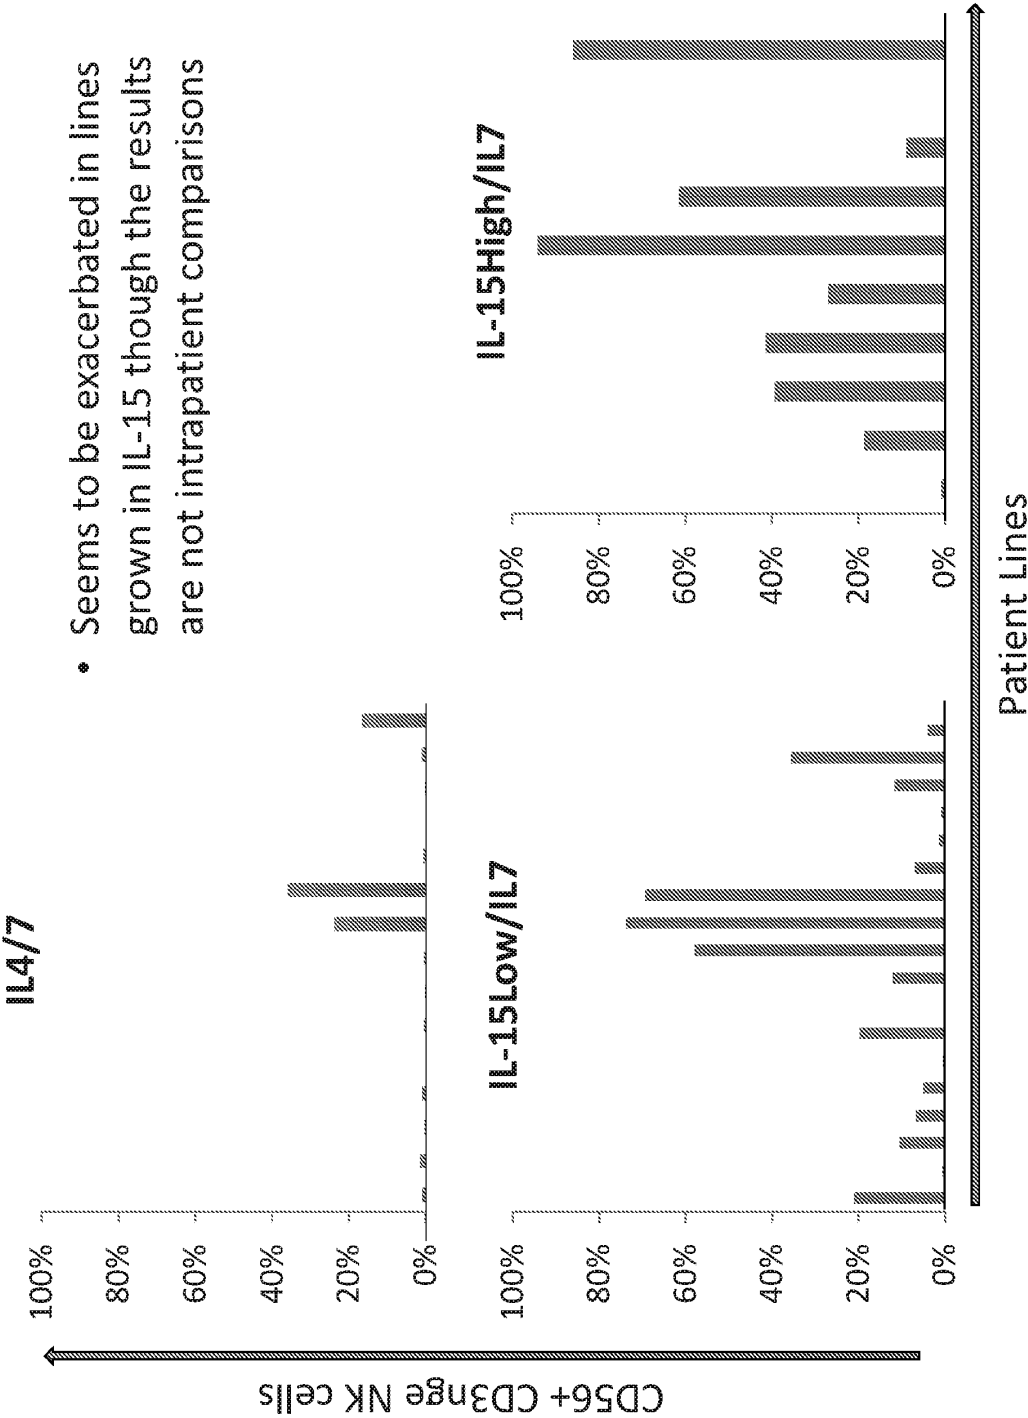

FIG. 5

- Seems to be exacerbated in lines grown in IL-15 though the results are not intrapatient comparisons

FIG. 6

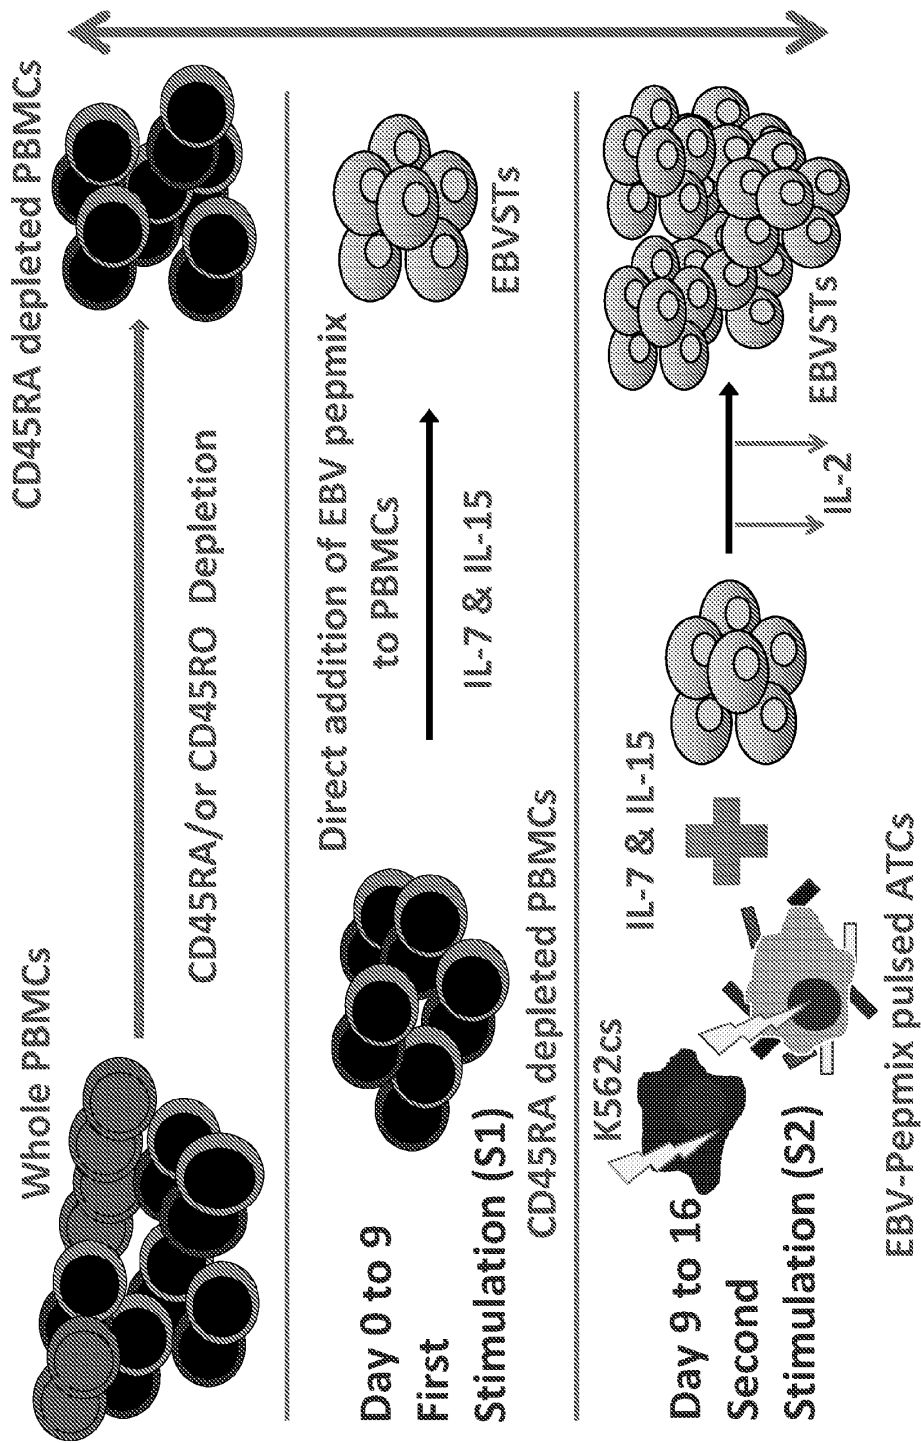

FIG. 7

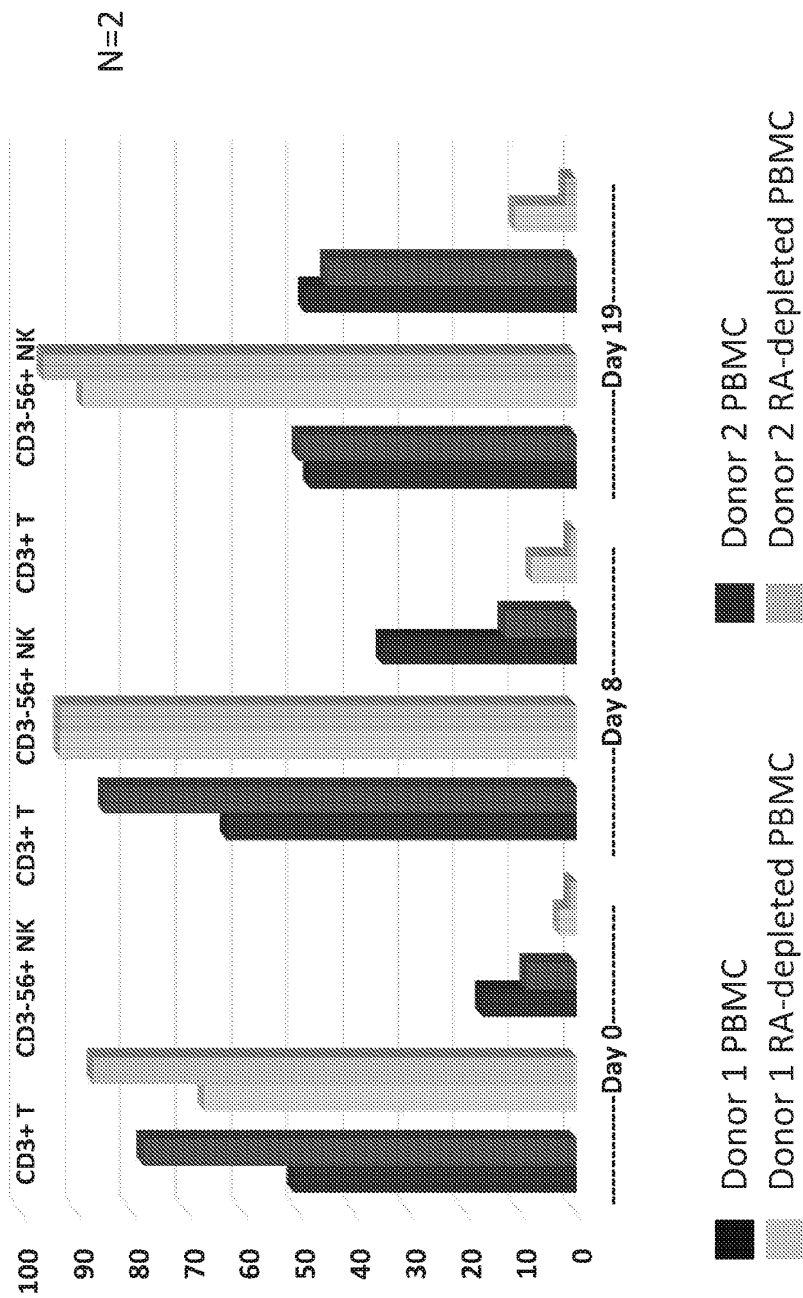

FIG. 8

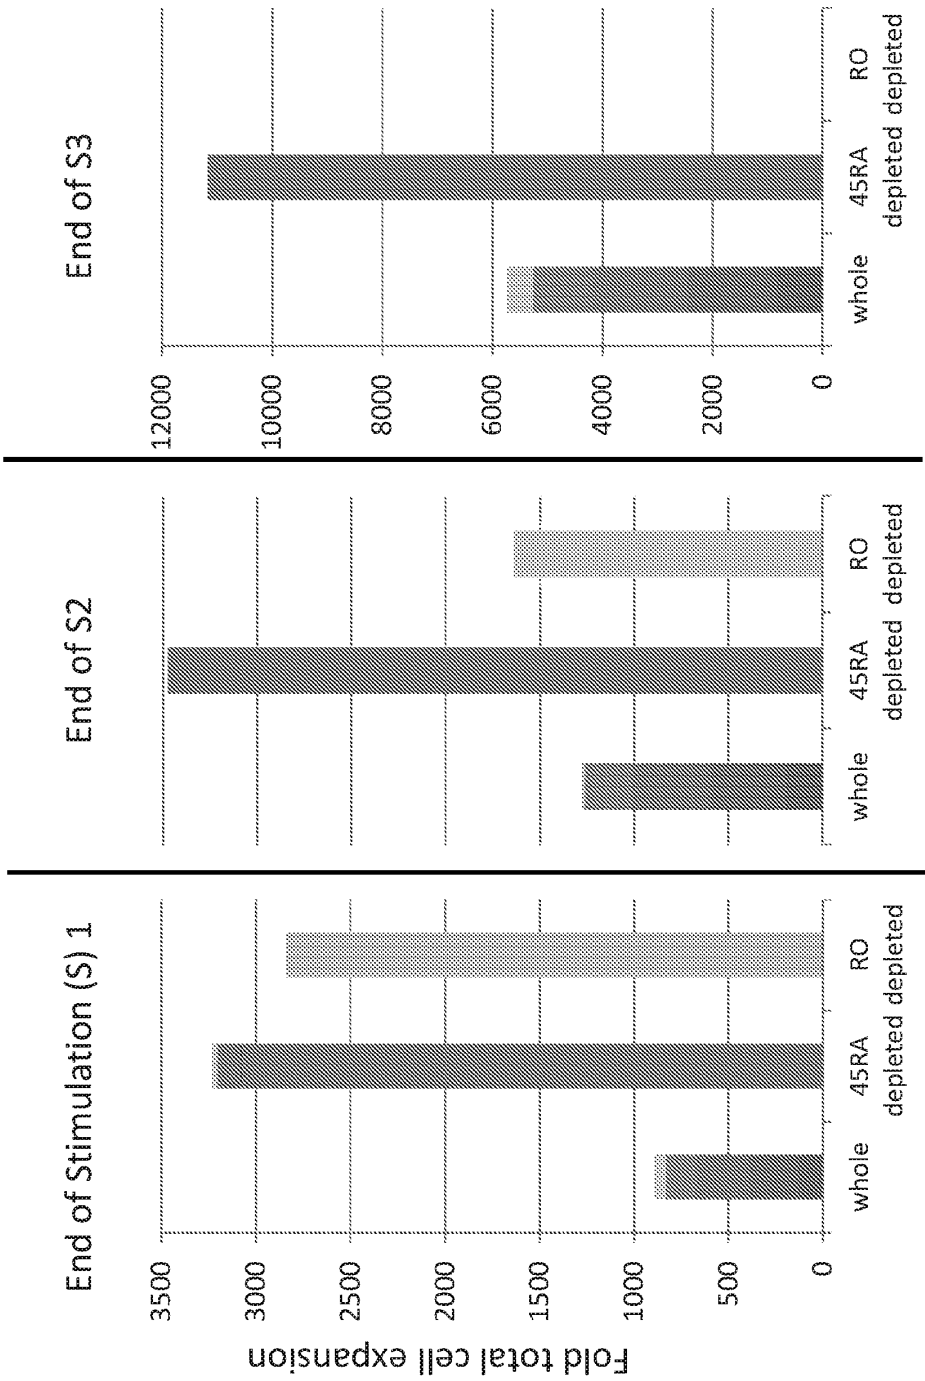

FIG. 9

End of Stim 2 of Healthy donor EBVSTs

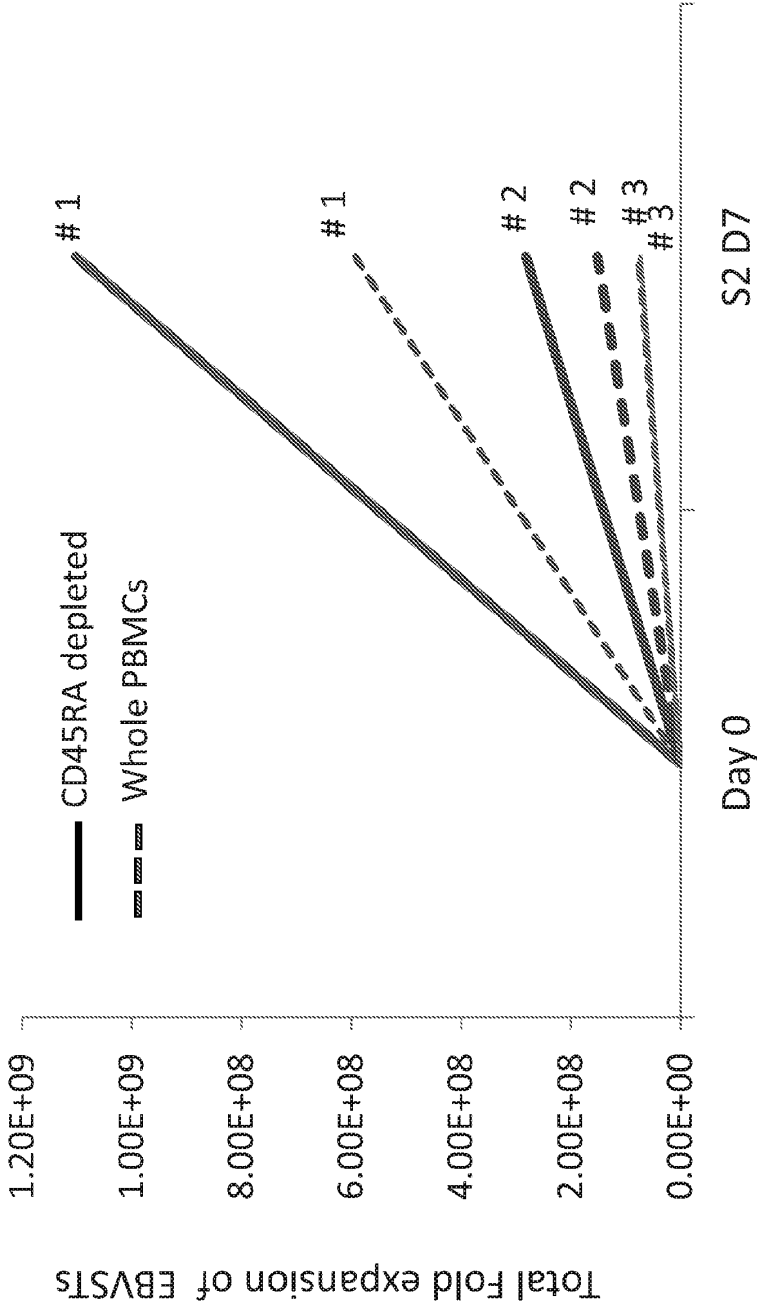

FIG. 10

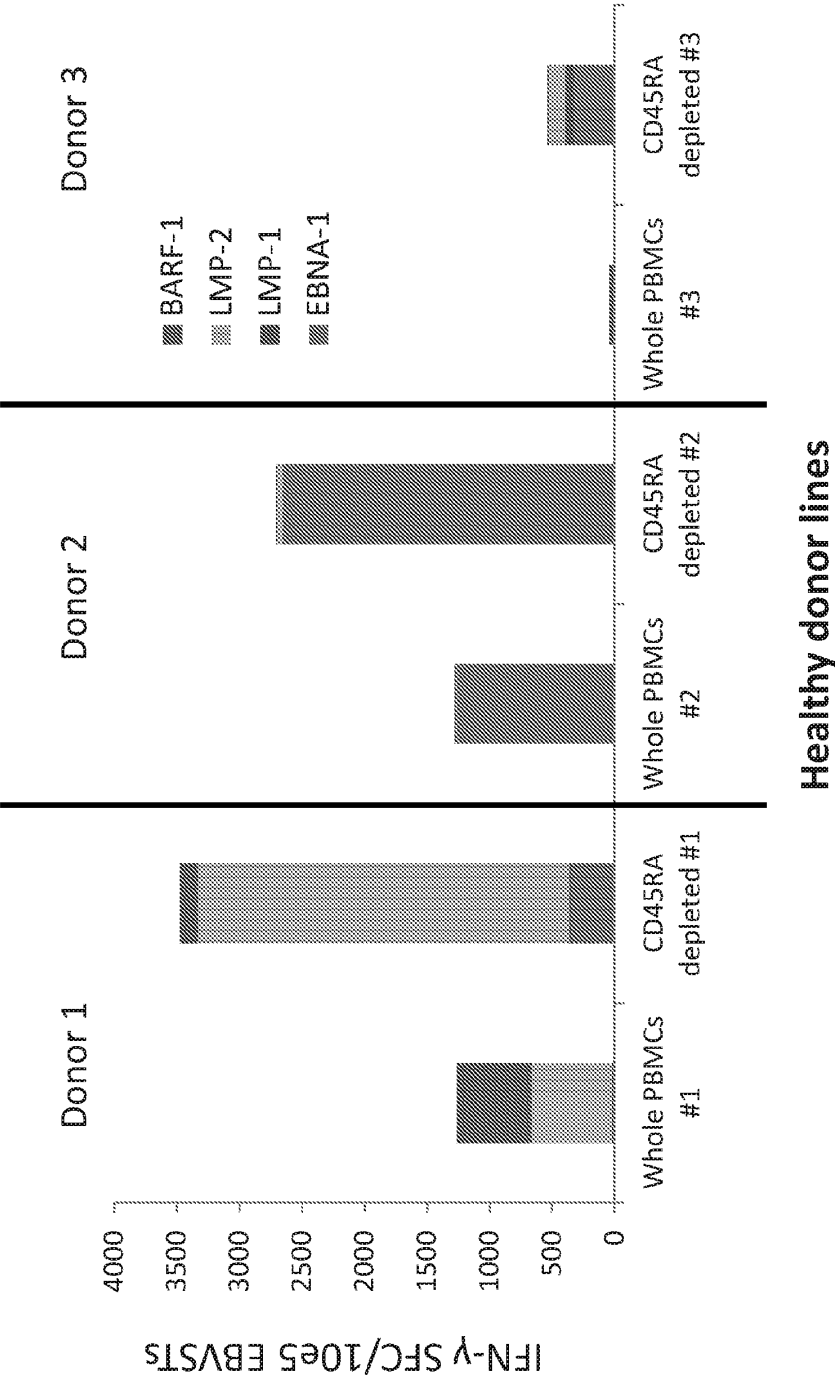

FIG. 11

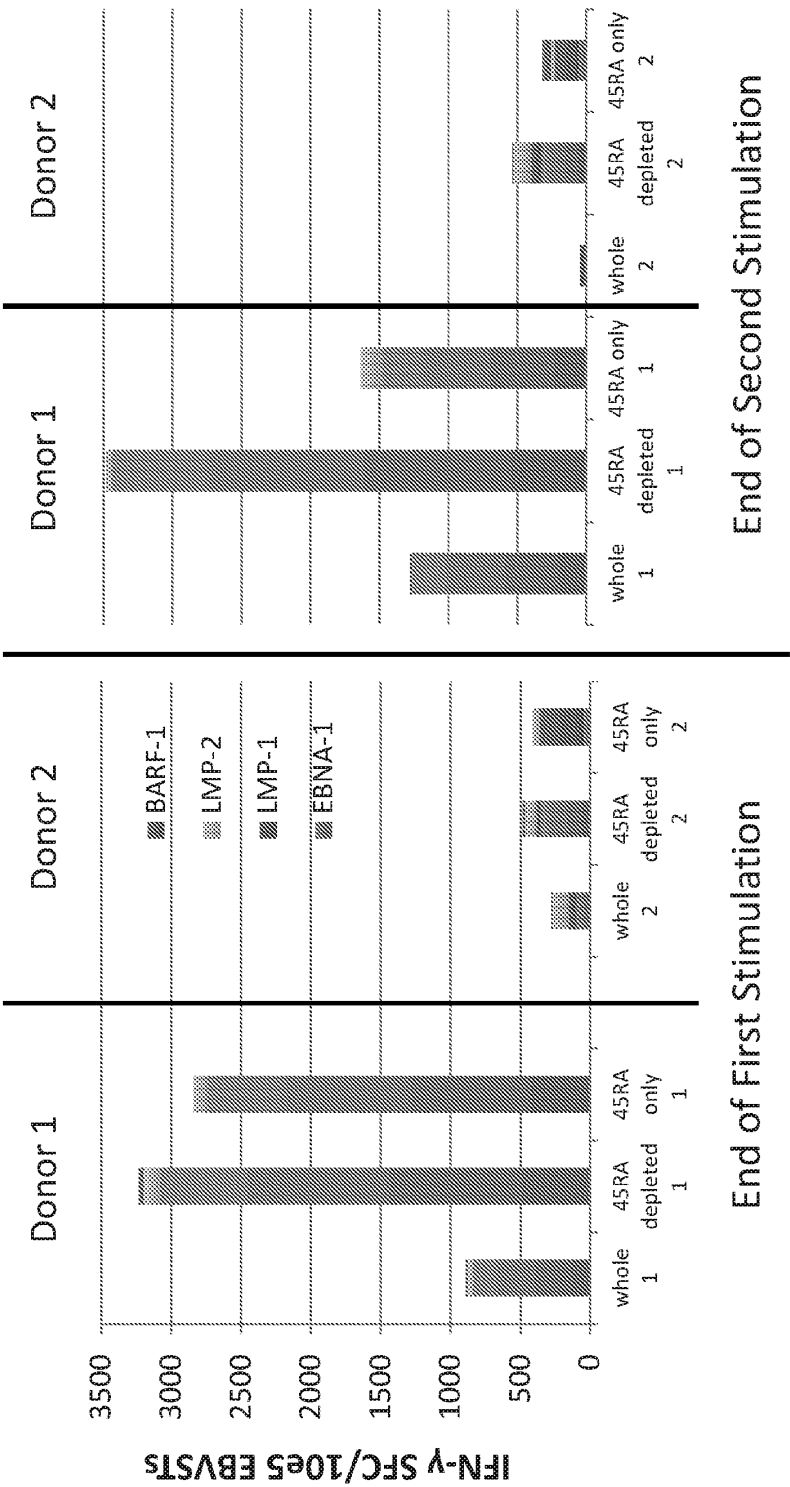

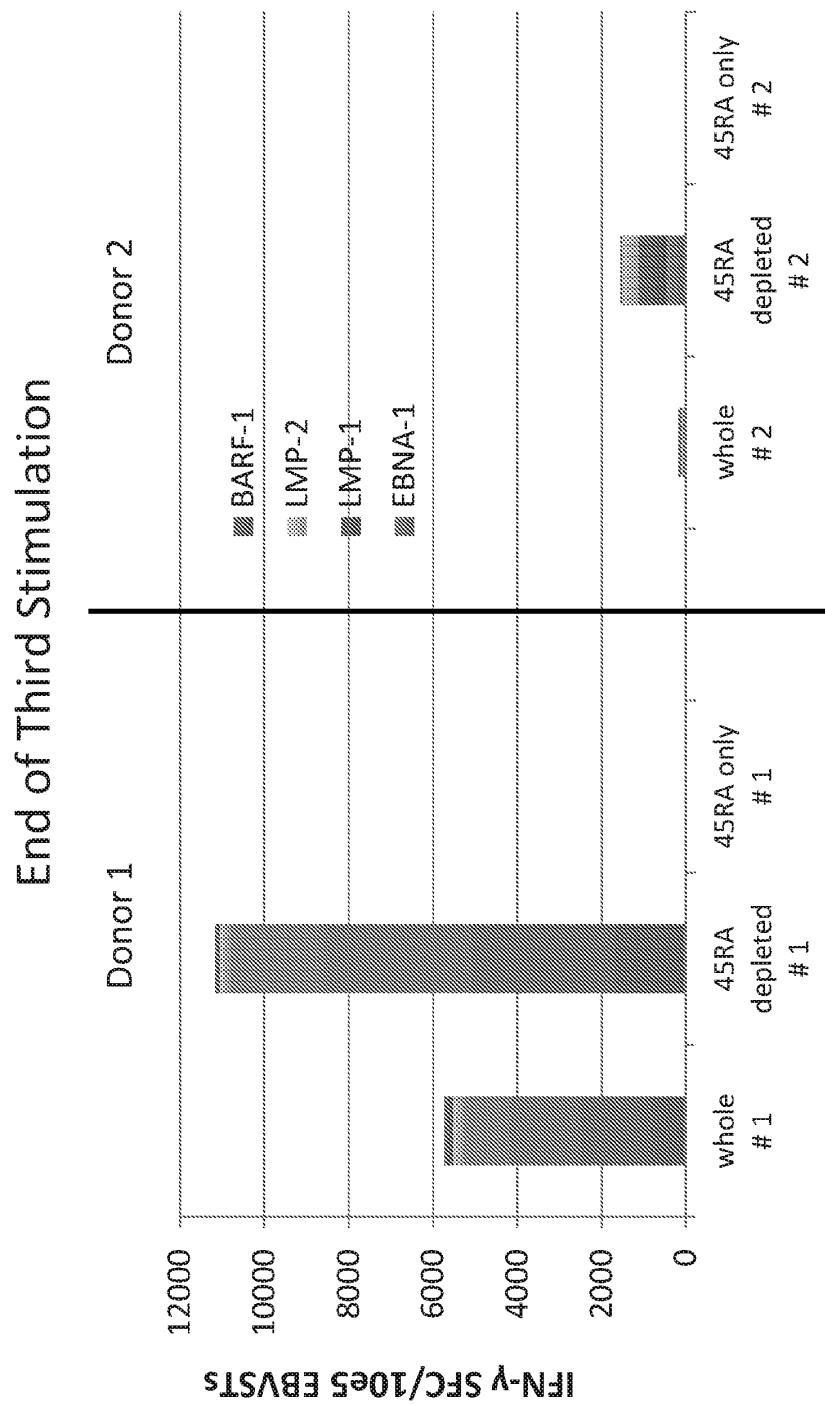

FIG. 12

Note: CD45RA+ cells fail to expand beyond second stimulation

FIG. 13

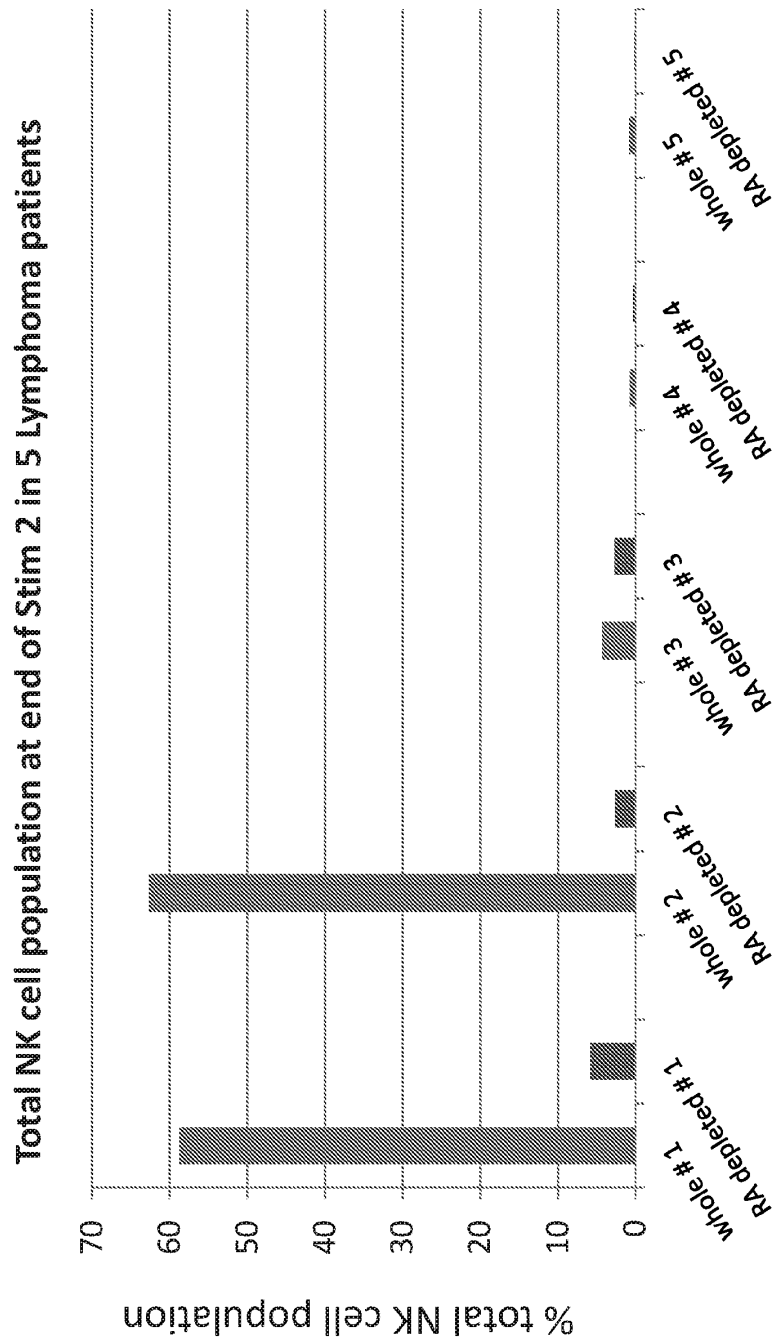

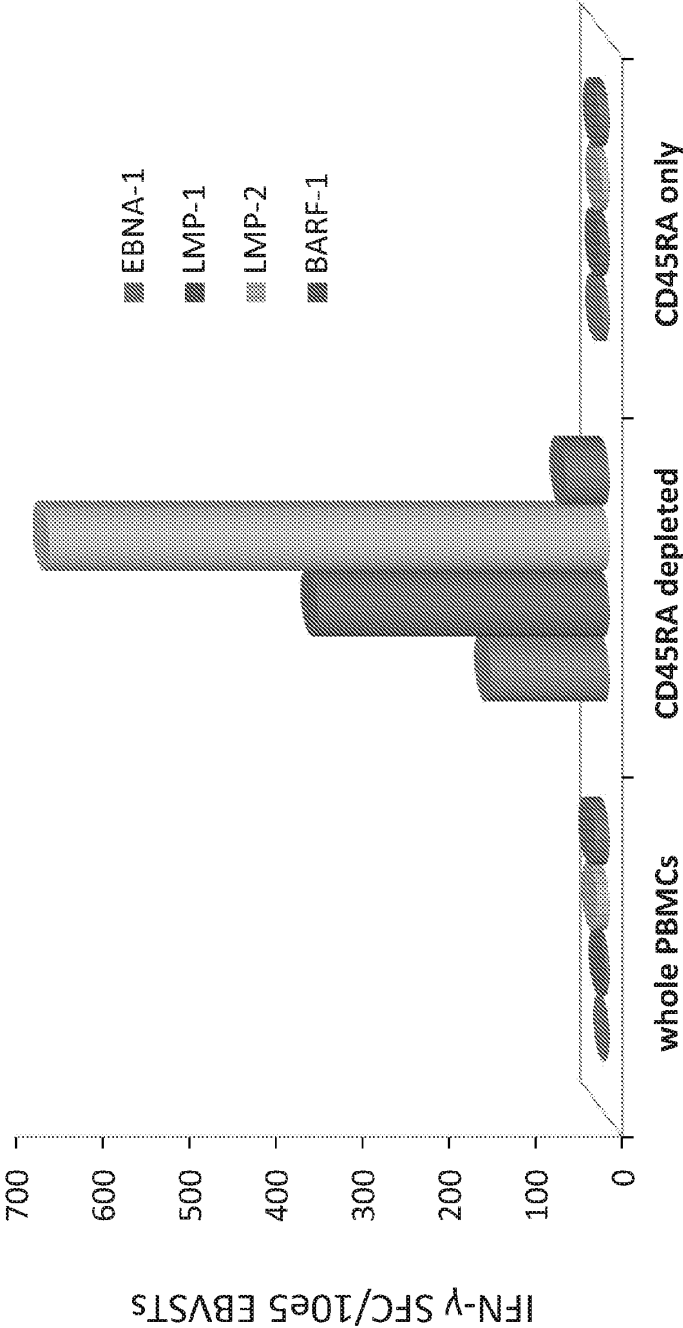

FIG. 14

IFN-γ Release Elispot assay at end of Second Stimulation

* Whole PBMCs with DCs but the depleted conditions were generated without using DCs
