(54) **Title:** WIRELESSS ENERGY SOURCES FOR INTEGRATED CIRCUITS

**FIG. 1**

(57) **Abstract:** A system comprising a control device and a wireless energy source electrically coupled to the control device is disclosed. The wireless energy source comprises an energy harvester to receive energy at an input thereof in one form and to convert the energy into a voltage potential difference to energize the control device. Also disclosed, is the system further comprising a partial power source. Also disclosed, is the system further comprising a power source.
