CORROSION PROTECTIVE POLYUREA COATINGS**ABSTRACT OF THE DISCLOSURE**

Corrosion protective coatings comprising a plurality of coating layers on a surface of metal structures where at least a primer layer of the coating comprises a single-component, moisture-curable type polyurethane-urea resin, zinc powder and/or micaceous iron oxide. The zinc powder and/or micaceous iron oxide are preferably present in an amount 70-95% by weight in the primer layer.
