(54) Title: METHOD AND SYSTEM FOR NAVIGATING A DIRECTORY

(57) Abstract: A method and system for enabling navigation of a directory. The method includes printing a document containing a list of directory entries corresponding to at least one node of an index of the directory, with at least one user interactive element which enables a user to indicate a request for further directory information by interacting with the element using a sensing device which is adapted to transmit request data to a computer system; and printing the further directory information on a document.
