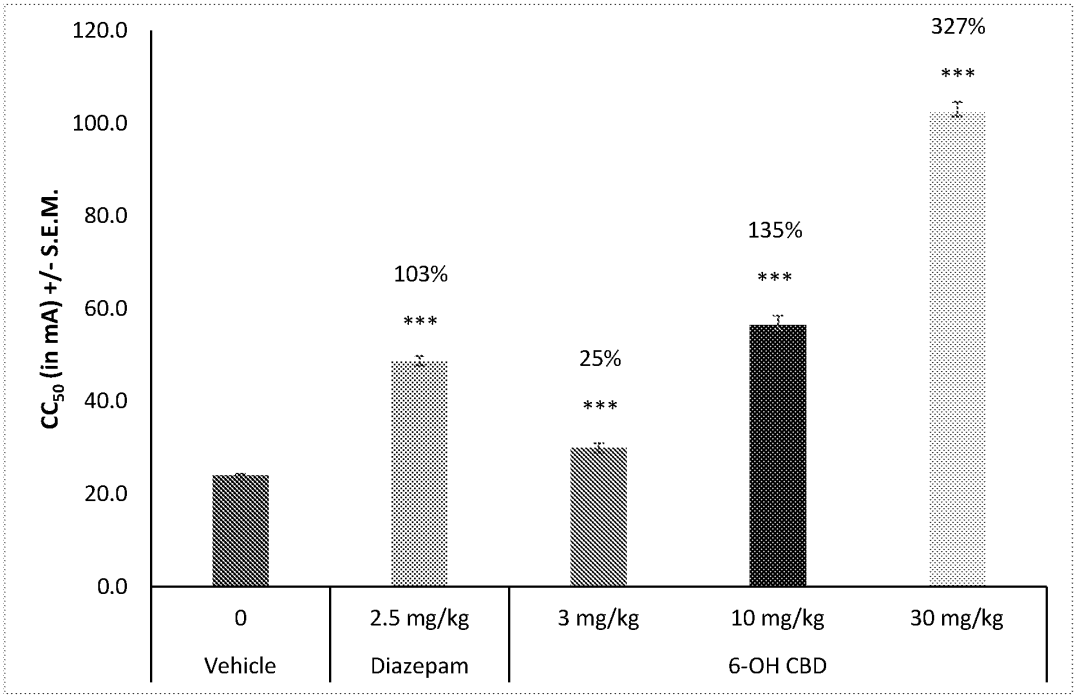

Figure 1. Effect of 6-OH Cannabidiol (6-OH CBD) on the electroshock-induced generalised seizure threshold (MEST) in the mouse

* P<0.05; ** P<0.01; *** P<0.001 Significant change in threshold when compared to own vehicle

Figure 2. Pharmacokinetics of 6-OH Cannabidiol (6-OH CBD) in plasma and brain of mice following a single intravenous or intraperitoneal administration
