

ABSTRACT

Disclosed is a pressure sensitive adhesive composition for forming a pressure sensitive adhesive sheet (21). The pressure sensitive adhesive sheet is used for bonding a
5 polarizer (11) to a cover window (70) of an image display device (100). The pressure sensitive adhesive composition may contain an ultraviolet absorber. Transmittance changes of a sample in which the pressure sensitive adhesive sheet is arranged in contact with the polarizer is subjected to a moisture and heat test may be in a specific range.
