

ABSTRACT

MEDICAL NEEDLE

A medical needle (10) includes a needle body (12), a hub (14), and a protector (16). The hub includes a first resin composition.

5 The protector has a needle sheath (50) that covers a part of the needle body. The needle sheath includes a second resin composition. The first resin composition and the second resin composition each contain polyvinyl chloride and a trimellitate. In the first resin composition, the trimellitate accounts for 10 to 20

10 phr. In the second resin composition, the trimellitate accounts for 40 to 50 phr.
