

FLIGHT DECK DISPLAY OF MPA PROCEDURES

ABSTRACT

Methods, systems, and computer-readable media are
5 described herein for displaying MPA procedures on a display
unit of an aircraft. An assigned MPA approach path to an
arrival runway is received at the aircraft. Data regarding a
number of predefined MPA approach paths associated with the
arrival runway are retrieved, and the assigned MPA approach
10 path is displayed on the display unit in conjunction with
other of the predefined approach paths associated with the
arrival runway.
