

ABSTRACT**Hydraulic composition for grout**

5 The invention is aimed primarily at a hydraulic composition comprising:

- water;
- hydraulic binder;
- at least one setting retarder;
- at least one polysaccharide;

10 - the water/hydraulic binder weight ratio being greater than 1.5.

It also relates to the use of this composition as a mixture A in a grout.

The invention finally relates to a process for preparing an associated grout and the grout thus obtained.
